Skills

Frontend: JavaScript, TypeScript, HTML5, CSS3, React.js, Next.js, Redux Toolkit, Tailwind CSS, Material-UI,

Backend: C++,Node.js, ExpressJs, BunJs, MongoDB

Testing: React Testing Library, Jest

Tools & Technologies: Git, npm/yarn, Webpack, WebRTC,Socket.io, React Router,Jenkins,GHA,Vercel

Professional Experience

Software Engineer

Semtech

06/2023 – present

Pune, India

- **Led UI Simplification Initiative:** Designed and implemented a Basic/Advanced mode interface, resulting in a 40% improvement in user workflow efficiency (as measured by internal usage analytics and user surveys). Conducted usability testing sessions and iterated based on user feedback.
- **Contributed to Server-Driven Web UI:** Collaborated with cross-functional teams to build an enterprise-grade, highly customizable UI for router and gateway management, serving 1,000+ global enterprise clients. Integrated React front-end with C++ backend components, ensuring seamless configuration management, accessibility, and localization support.
- **Modernized Testing Infrastructure:** Headed the migration from Enzyme to React Testing Library for front-end test cases, boosting test reliability and maintainability across React and C++ integrated modules.
- **Enhanced Developer Experience:** Co-developed a “Developer Mode” for the front-end stack, streamlining local development setup and reducing onboarding time for new engineers by 60%. Authored onboarding documentation and mentored junior developers.
- **Tech Stack:** React.js, C++, Redux, React Testing Library

Software Engineer + Internship

Josh Software Private Limited , Pune

01/2022 – 06/2023

Pune, India

Optessa:-

- **Delivered End-to-End Solution:** Built car delivery estimation platform serving automotive dealerships with real-time tracking capabilities
- **Optimized State Management:** Implemented Redux Toolkit architecture for complex filtering logic, improving application performance by 25%
- **Client Recognition:** Received appreciation from client for exceptional code quality and timely delivery
- **Tech Stack:** React.js, Redux Toolkit, React Router, Bootstrap, NodeJs,MongoDB

Rebel Foods:-

- **Built Inventory Management System:** Developed three-layer acceptance module for store inventory, handling 500+ daily transactions
- **Improved Data Fetching:** Implemented React Query for efficient server state management, reducing API calls by 30%
- **Tech Stack:** React.js, React Query, Material-UI, Bootstrap, React Router,NodeJS,MongoDB

Projects

Shadcn-Loaders

- Built **Shadcn Loaders**, an open-source library of 20+ React loader components using TypeScript and Tailwind CSS.
- Implemented customizable, theme-aware loaders with size and color controlled via props and Tailwind dark mode.
- Deployed and maintained the library with Vite and Vercel, including SEO and branding optimizations
- **Tech Stack :** React.js, Tailwindcss, Vite, Vercel

Education

Btech-Electronics Engineering

Walchand College Of Engineering, Sangli

Completed Btech degree in electronics engineering with **8.21** CGPA

2018 – 2022

Sangli, India

achievement

- **Diamond Award** - Outstanding contributions in feature development at Semtech
